BCG50306

Diploma of Building and Construction (Management)

Course Overview

This course is designed to meet the needs of senior managers within building and construction firms. Participants will learn a diverse range of skills that will enable them to manage budgets and financial plans and manage the operations of an enterprise. They will also learn about recruiting and managing staff to ensure team effectiveness.

Qualification

Upon successful completion of this course participants will be awarded the nationally recognised qualification Diploma of Building and Construction (Management) BCG50306.

Course Requirements

To successfully complete Diploma of Building and Construction (Management) students are to satisfactorily complete 12 units of competency, including five (5) core units (if not previously attained) and seven (7) elective units.

CORE UNITS (Complete all 5)	
Code	Unit Title
BSBFLM505B	Manage operational plans
BSBFLM512A	Ensure team effectiveness
BSBFLM513A	Manage budgets and financial plans within the work team
BSBMGT506A	Recruit, select and induct staff
BSBOHS504A	Apply principles of OHS risk management

Elective Units (Complete all 7)	
BCGBC5005A	Select and manage building and construction contractors
BCGBC5010B	Manage construction work/projects
BSBADM402A	Produce complex business documents
BSBFLM501B	Manage personal work priorities and professional development
BSBFLM507B	Manage quality customer service
BSBHR405A	Implement industrial relations procedures
BCGBC5011A	Manage building or construction, environmental management practices and processes

The above elective units are a guide only. Our experienced and highly qualified training staff will be able to conduct a Training Needs Analysis and indicate elective units appropriate to the individual's vocational aspirations.

BCG50306 Diploma of Building and Construction (Management)

Delivery Strategy

Customised Training offers a variety of delivery options including classroom based and on-the-job, allowing participants the freedom to complete this qualification at their own pace under the guidance of one of our trainers. Participants will also be required to complete complex written assessment tasks.

Prerequisites

Participants are to be employed in a position relevant to the qualification or will need to arrange a suitable practical placement.

Learning Pathway

The Diploma of Building and Construction (Management) BCG50306 is a nationally recognised qualification within the Australian Quality Training Framework (AQTF). Upon successful completion, participants are able to further their studies and undertake the Advanced Diploma of Business BSB60207.

Recognition of Prior Learning/ Recognition of Current Competency

Recognition of Prior Learning/ Recognition of Current Competency enable a participant to receive recognition for the current skills, knowledge and experience they possess regardless of where the learning was obtained. These skills can be gained from:

- Previous study
- Work experience
- General life experience
- Prior qualifications and/or results

RPL/RCC ensures the knowledge and skills previously gained are applied to the qualification criteria. RPL/RCC can assist in identifying what training may be required to complete the qualification, avoiding any unnecessary training.

Participants are encouraged to discuss possible RPL/RCC application prior to commencement of training.
